II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Part 55 of title 10 of the *Code of Federal Regulations* (10 CFR), "Operators' Licenses."
2. *OMB approval number:* 3150-0018.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* As necessary for the NRC to meet its responsibilities to determine the eligibility for applicants and operators.

6. *Who will be required or asked to respond:* Holders of, and applicants for, facility (i.e., nuclear power and non-power research and test reactor) operating licenses and individual operator licensees.

7. *The estimated number of annual responses:* 437 (345 reporting responses + 92 recordkeepers).

8. *The estimated number of annual respondents:* 92.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 170,928 hours (149,619 hours reporting + 21,309 hours recordkeeping).

10. *Abstract:* 10 CFR part 55 “Operators’ Licenses,” specifies information and data to be provided by applicants and facility licensees so that the NRC may make determinations concerning the licensing and requalification of operators for nuclear reactors, as necessary to promote public health and safety. The reporting and recordkeeping requirements contained in 10 CFR part 55 are mandatory for the affected facility licensees and applicants. In addition, the information collection includes two online forms for requesting exemptions from requirements for part 55 “Exemption Request” and part 55 “Research and Test Reactor Exemption Request related to the COVID-19 Public Health Emergency.” The information collected by the online form is the minimum needed by the NRC to make a determination on the acceptability of the licensee’s request for an exemption.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: January 27, 2022.
